

WELCOME TO ALLIGATOR ADVENTURE!

Anyone in uniform will be happy to assist you if you have any special needs or questions. We hope that we not only meet your expectations, but exceed them and look forward to your return visit. Remember that your second day is always free at Alligator Adventure!*

**In order to receive your 2nd-Day-Free Pass you must stop by the ticket booth before you exit the park on your first visit. In hand you will need your tickets, receipt, and the adults' photo IDs. A new pass will be issued to your party that can only be used by the individuals in your group. It cannot be sold, traded, or refunded for money. This pass will be valid for seven days from the date of your initial visit. Photo IDs must be available for all adults upon returning to the park or readmission will not be granted.*

PARK RULES

Any child under the age of 16 must be accompanied by an adult at all times.

Children are not allowed to be placed on or above an adult's shoulders.

Never allow your child to be placed on or above railings.

Do not place fingers through the fences. All animals on exhibit are capable of biting.

Please no running or horseplay while you visit. Keep other guests in mind - especially young children.

Boardwalks and other surfaces such as the bleachers can become slippery when wet. We do not recommend high heels, flip flops, or shoes with wheels.

Shoes and a shirt must be worn at all times.

Please do not feed or attempt to touch any animals in the park unless a staff member has instructed you that it is appropriate to do so.

Remember to wash and sanitize your hands each and every time that you come into contact with an animal.

All of our animals are on a strict diet. Any trash, cigarette butts, or even leaves that are fed to the animals could result in serious complications and/or possible death of the animal. For this reason, please properly dispose of all trash during your visit.

It is against South Carolina law for anyone to feed or disturb an alligator who does not possess the appropriate permit to do so.

In order to continue providing our customers and animals with the safest and most comfortable environment, Alligator Adventure is proud to announce that we are now a smoke-free facility. We would like to thank you in advance for your cooperation.
